2. GENERAL SUPPLY ASPECTS

2.1. PURPOSE

2.1.1. The CGF document and its annexes define the general supply terms for the supply performed by the Supplier to HPGM. The set of documents that comprises the CGF, the CEF, the Purchase Order and any document that reflects any commitment entered into between the Parties, including, but not limited to, email messages and meeting minutes, reflects the entirety of the rights and obligations of the Parties in connection with the Supply. If the Supply includes the processing of Personal Data, the Supplier will also comply with the aspects of Personal Data processing set forth in the specific Annex.

2.2. VALIDITY

2.2.1. The Supply will be valid for an indefinite period unless a specific deadline is determined in the Purchase Order and/or CEF. In this case, after the end of said period, the Supply will be automatically renewed for an indefinite period.

2.3. TERMINATION

2.3.1. The Supply may be terminated by either party with a notice sent ninety (90) days in advance.

2.3.2. If the CEF establishes a term different than the one described in the item above, the term established in the CEF should be considered to the detriment of the term described in this clause.

2.3.3. A fine for early termination of the Supply will only be enforceable if the termination occurs in Supplies with a determined term. Both the validity and the fine will be stipulated in the CEF. If the Supply does not specify term, no fine for the early termination of the Supply will be owed by either Party.

2.3.4. The Supplier shall complete all the Supplies that were required up to the moment prior to the termination notice, under penalty of being liable for the direct and indirect losses and damages caused to HPGM as a result of the sudden and unforeseen interruption in the Supply.

2.3.5. Additionally, the Supply may be terminated by either Party, regardless of a fine, by means of a written communication when one of the following cases occurs:

- a) bankruptcy, judicial or extrajudicial recovery, liquidation or dissolution of any of the parties;
- b) if the infringing Party is notified due to non-compliance with the obligations inherent to the Supply and does not regularize them within the period established by the innocent Party;
- c) violation of confidentiality provisions set forth in the CGF;
- d) assignment of the Supply to third parties without prior written consent as provided for in the CGF;
- e) violation of the anti-corruption provisions set forth in the CGF;
- f) infringement of the provisions regarding the processing and security of Personal Data set forth in the GCF.
- g) violation of exclusivity in the supply of Exclusive Goods;
- h) recurring irregularities by the Supplier towards its Representatives.

2.4. SERVICE LEVEL AGREEMENT

2.4.1. If the Parties stipulate a service level for the Supply, said criteria will be described in the CEF and must be adhered to by the Supplier.

2.5. PRICE AND PAYMENT

2.5.1. The price, form and payment terms for the Supply will be as described in the Purchase Order and/or CEF.

2.5.2. For Supplies involving value exchanges, the price paid by the HPGM will be represented in the currency of the country where the HPGM entity is located, and the Parties must use the exchange rate of the value in foreign currency according to the PTAX index published by the central bank of the location of the HPGM branch on the last business day before the invoice due date.

2.5.3. The price of the Supply represents the total cost of the Supply, including, but not limited to, all applicable taxes, unless otherwise stated in the Purchase Order and/or CEF.

2.5.4. The taxes that are due as a direct or indirect result of the Supply will be the exclusive responsibility of the taxable person as defined in the Standard.

2.5.5. The prices of the Supply will be invariable for the period in which the Supply takes place, except in the case of readjustments, which can only occur every twelve (12) months, upon demonstration by the Supplier of the economic impact suffered, or within another period as determined by the Rules.

2.5.6. The prices of the Supply will be the same for all entities of the HPGM Group. The Supplier shall not be allowed to establish differences in the supply to one entity or another, unless such differences arise from costs, including but not limited to transportation costs, taxes and costs resulting from the Rules.

2.5.7. HPGM's receipt of invoices issued by the Supplier shall not constitute an acceptance of their terms. In the event that HPGM questions any data contained in the "nota fiscal"/invoice, HPGM will pay the undisputed amount and will not pay the disputed amount until it is resolved between the Parties. In this case, the expiration term of the disputed amount will be suspended until its effective clarification, without the incidence of any burden, penalties or additions of any nature to HPGM.

2.5.8. The Supply may have a downpayment as a condition for payment, as described in the Purchase Order and/or CEF.

2.5.9. Any and all amounts that are not paid without reason on the respective due date, pertaining to the Supply, will be increased by a late payment fine of two percent (2%) on the defaulted amount, plus late payment interest of one per cent (1%) per month, calculated pro rata die, in favor of the creditor Party.

2.5.9.1. If the obligation does not have a stipulated maturity or, due to its legal nature, requires the creditor Party to previously notify the debtor Party in order to constitute the default, such notification must occur at least thirty (30) days before the due date of the credit or within the period described in the Purchase Order and/or CEF.

2.6. LICENSES AND AUTHORIZATIONS

2.6.1. The Supplier declares that it has all the authorizations, licenses and records required for the Supply, having the capacity, technical suitability, qualifications, and applicable certifications for the performance of the Supply. This declaration extends to Supplier Representatives and to equipment that may be used in the Supply.

2.6.2. The Supplier will assure that any of its subcontractors shall meet these conditions, if it chooses to transfer the Supply, in whole or in part, provided that it is with the express agreement of HPGM.

2.7. COMPLIANCE WITH RULES

2.7.1. The Supplier represents and warrants that both it and the Supplier's Representatives comply and will continue to comply with all Standards throughout the Supply period.

2.7.2. No contrary request in this regard, by any party whatsoever, will authorize the Supplier to fail to comply with the Rules.

2.8. EXCLUSIVITY

2.8.1. The Supply does not assume or grant exclusivity to the Supplier, and HPGM may hire other individuals and/or legal entities for other supplies, including for the same object, unless otherwise stipulated in the Purchase Order and/or CEF.

2.8.2. If the Supplier supplies Exclusive Goods, said goods may not be sold to other companies that are not part of the HPGM Group.

2.8.3. Without prejudice to any other applicable right or remedy for HPGM, if the Supplier sells the Exclusive Goods to third parties, a non-compensatory fine will be charged from the Supplier in the amount equivalent to one hundred percent (100%) of all the Supplier's billing related to the Exclusive Goods earned from said sales to third parties.

2.8.4. If the Supplier supplies Exclusive Goods that are imported specifically to be sold to HPGM, the operation must be previously communicated and authorized by HPGM in order to ensure that it is not wrongfully characterized as an indirect import. Once the indirect operation is characterized, the Supplier must comply with the applicable requirements and obligations, provided for in IN RFB No. 1861, issued on December 27, 2018.

2.9. DELAY

2.9.1. The Supplier shall comply with all deadlines established by the Parties.

2.9.2. If the use, sale, manufacture or import of any object related to the Supply is prohibited by court order and/or Regulation, the Supplier shall contact HPGM as soon as possible so that the Parties can jointly determine how to resolve the matter. In no event shall the Supplier make decisions on this matter without the prior written consent of HPGM.

2.10. LIABILITY AND INDEMNIFICATION

2.10.1. The Supplier, at its expense, shall protect, defend, indemnify and compensate the Insureds from and against any and all liability claims, including, but not limited to, losses, damages, costs and expenses arising out of, resulting from or in connection with the Supply.

2.10.2. The indemnity liability will remain in force for a period of ten (10) years, even after the end of the Supply.

2.11. LABOR RESPONSIBILITY

2.11.1. The Supplier is objectively responsible for the actions, omissions, negligence, recklessness and/or malpractice of the Supplier's Representatives, as well as being solely responsible for the contracting and timely payment of any and all consideration owed to the Supplier's Representatives, as well as all tax, labor, social security and accident obligations, responding as the sole and exclusive employer, responsible for all controls applicable to the Supplier's Representatives, with HPGM having no obligation in this regard, even in cases of lawsuits filed against the Supplier and/or HPGM.

2.11.2. In the event that HPGM becomes aware of any irregularity between the Supplier and the Supplier's Representatives, HPGM is entitled, at its sole discretion, regardless of the forwarding of any communication to the Supplier, to suspend payments to the latter party until the situation is remedied by the Supplier, without prejudice to having HPGM terminating the Supply without incurring any fine, indemnity or encumbrance applicable to it, pursuant to the termination clause.

2.11.3. If the Supply requires the Supplier's Representatives to use individual and/or collective protective equipment, the Supplier undertakes to supply them in accordance with all the Standards.

2.12. PROCEDURAL RESPONSIBILITY

2.12.1. As a result of the Supply, HPGM may be characterized as the defendant in lawsuits; should that occur, HPGM will be exclusively responsible to choose from among the following options, in relation to its procedural representation in such Lawsuits:

a) to pass on to the Supplier all expenses incurred, including, but not limited to, costs, lawyer fees, convictions, and fines;

b) delegate its procedural representation to the Supplier, so that the latter is responsible for representing it in the Lawsuits, fully bearing all the expenses described in option "a";

2.12.2. If HPGM chooses to delegate its procedural representation, the corresponding operational guideline is described in the Procedural Representation Manual, which can be found on the Supplier Portal.

2.13. INTELLECTUAL PROPERTY

2.13.1. Intellectual property rights (patents, invention models, industry and trade secrets, copyrights, including computer programs, source codes and other related rights), when arising from the Supply performed, conceived, discovered, promoted or performed for HPGM or even for any other company of the HPGM Group, including those resulting from improvements resulting from the Supply, whether or not they are patentable, with a research object or inventive step related to the scope of the contract, or resulting from the nature of the services for the which the Supplier was contracted, will belong fully, exclusively and definitively to HPGM, with the total assignment of intellectual property rights by the Supplier to HPGM, when applicable. HPGM may use, enjoy, dispose of, reproduce, license, assign, distribute, among others, the invention/creation at its sole discretion. Such rights shall belong to HPGM regardless of:

a) the time spent by the Supplier in developing the invention or creation;

b) the ownership of the space where the invention/creation was developed; and

c) the fact whether the Supplier's equipment or personnel were used.

2.13.2. HPGM, as the owner of all intellectual property rights and all related rights over the inventions and/or creations, whether material or immaterial resulting from the Supply, is authorized to promote any and all registrations exclusively and at its sole discretion, as well as taking all appropriate administrative and judicial measures to protect its rights.

2.13.3. The Supply does not transfer or grant the Supplier any rights, or even the authorization to use the rights, whether recognized or not, of intellectual property or related, of which HPGM is or will be the owner, as well as those related to the use of resources, technological information, know-how, industry and trade secrets, materials and documents provided by HPGM during the development of the invention and/or creation, nor over the result of the Supply performed by the Supplier.

2.13.4. The use of any intellectual property rights of HPGM, including, but not limited to, trademarks, logos, patents, know-how, etc., always depends on the prior and express written authorization of HPGM, except for the uses required for the performance of the Supply, with the Supplier being responsible for the correct handling and measurement of the uses that are already covered by the Supply and those that require authorization, answering for any undue or unauthorized use of the rights described in this section, as well as for any violations of HPGM's intellectual property rights.

2.13.5. The Supplier declares that it holds all rights and licenses for the use and exploitation of patented goods, industry designs, trade or industry secrets, know-how, software and/or copyright and related rights, authorization for the use of image, voice, name and other personal rights, as well as any other industrial and/or copyright rights of third parties, which may be used in the Supply, being fully responsible for any violation resulting from the use by HPGM, or even by any other company of the HPGM Group, of inventions and/or creations of third parties protected by intellectual property rights, exempting HPGM and any other company of the HPGM Group from any liability.

2.13.6. Supplier represents and warrants that the Goods do not include or use any third-party software or licensed components that may burden HPGM with any obligations or conditions or that otherwise impact or compromise HPGM's intellectual property or Confidential Information, and the Supplier shall fully responsible for any use of software or components licensed by third parties protected by intellectual property rights, exempting HPGM from any liability.

2.13.7. The Supplier hereby authorizes HPGM to record any training used in the Supply. The trainings developed and carried out for HPGM will have all intellectual property rights and related to them, assigned definitively, totally and exclusively to HPGM. The Supply does not transfer or confer on the Supplier any rights, whether recognized or not, of intellectual property or related, of which HPGM is or will be the

holder, related to documents and/or information provided by HPGM, nor on the result of the training performed by the Supplier for HPGM, nor does it grant the Supplier authorization to use HPGM's intellectual property rights.

2.19.4. The Provider may share Confidential Information among its Affiliated Companies, but only to persons who need to know the Confidential Information in order to carry out the Supply.

a) notifies the Disclosing Party in writing;

b) provides the necessary support if the Disclosing Party objects to the disclosure of Confidential Information and seeks remedies to limit or cease disclosure;

c) discloses exclusively the information required by such order, making all efforts to obtain guarantees from the competent body that such Confidential Information will be kept confidential.

2.19.8. The Parties guarantee that compliance with the confidentiality obligations set forth herein does not violate any other confidentiality commitment previously agreed between the Parties and/or between any of them and a third party.

2.19.9. This commitment will not be interpreted in a way that would force the Disclosing Party to enter into any other agreement or transaction with the Receiving Party.

2.19.10. The Parties have the right to seek judicial remedies of any kind to ensure their rights related to confidentiality, even if there are no material damages and/or pain and suffering damages resulting from the breach of Confidential Information.

2.19.11. All legal remedies that the Party is entitled to seek, based on this confidentiality commitment, are cumulative and do not replace any other legal remedies.

2.20. ANTI-CORRUPTION AND MONEY LAUNDERING PREVENTION

2.20.1. The Supplier and the Supplier's Representatives agree that they will not bribe, attempt to bribe, or accept bribes from any individual or legal entity of any kind, nor they will engage in any acts that characterize money laundering and/or terrorism financing, whether these acts are related to placement, layering and/or integration of assets and/or values arising from illegal acts.

2.20.2. The Supplier is not authorized to act on behalf of HPGM, unless it has a power of attorney issued by HPGM on behalf of its Representatives.

2.20.3. In the event that HPGM has reason to suspect that the Supplier has failed to comply with such obligations, or is likely to do so, the Supply will be suspended, and payments will be withheld until HPGM, at its sole discretion, confirms that such violation has not occurred or that it will not happen.

2.20.4. If the Supplier discovers a fact that implies a breach of such obligations, it shall immediately take all measures to stop and/or reverse the corrupt act(s), in addition to notifying HPGM through its official Whistleblowing Channel available at <https://hedgepointglobal.com/ethic-line/> and cooperating with any investigations.

2.20.5. HPGM will not be obligated to make any payments to the Supplier if such payments are related to corrupt practices, money laundering and/or terrorism financing even if such payments are owed in connection with the Supply.

2.21. WAIVER AND NOVATION

2.21.1. HPGM's tolerance, concession or delay in demanding the performance of any obligation of the Supplier will not change that which is contracted between the Parties, will not constitute a novation or waiver of any right, nor will it prevent HPGM from demanding the performance of the Supplier's obligation.

2.22. PREVALENCE

2.22.1. If the Supplier has entered into or will enter into an agreement signed with HPGM, said agreement will prevail over the CGF with respect to the clauses that conflict between such documents, until such agreement is expressly superseded by the CGF.

2.22.2. Documentation relating to the Supply shall supersede any and all verbal understandings previously held between the Parties for the Supply.

2.22.3. If any provision of the CGF, of the Purchase Order and/or the CEF is determined to be invalid, illegal or unenforceable, the remaining provisions will remain in full force and effect.
